Sick In the Head

Six Feet Under

i gotta fight my way out of hell,
i gotta fight my way alone,
i see myself dead by suicide,
by a knife, gun, blade,or hang it high,
will i be safe or will i die,
can i stop the forces deep inside..my mind..my mind..my mind..my mind..my fucking mind!!dead to me..your dead to me..your dead to me..all dead to me..your dead to me..all dead to me..your dead to me...oh my fucking god!!!im a victum that lived through disaster, pushed to far, this is a reaction,
i hate, your lies, i hate,my life,dead to me..your dead to me..your dead to me..all dead to me.. dead to me..your dead to me..dead to me..all dead...oh my fucking god!!im a victum that lived through disater, pushed to far, this a reaction to you..
("to you "in the background)
i hate, your lies, i hate , my lifei hope we all find a way, a way to live dead together, i way to hide my fears, a way to disapear,i cant take it, i wont make it now, i just hate it, i cant take it, i wont make it now,i just hate it,i cant take it now, i cant take it, i cant take it, i cant take it, i wont make it now,dead to me..your dead to me..your dead to me..all dead to me..your dead to me..all dead to me..your dead to me..death, death, your soon to be dead,
i got a 12 gage under my chin,death, death, your soon to be dead,
i got a 12 gage under my chin,dead to me..your dead to me..your dead to me..all dead to me.. your dead to me.. all dead to me..your dead to me..all dead...oh my fucking god!!im a victum that lived through disaster, pushed to far this a reaction..died a thousand times again, in my mind i have died, i have slowly withered, i have slowly withered,died a thousand times again, in my mind i have died, i have slowly withered, i have slowly withered,died a thousand times again, in my mind i have died, i have slowly withered, i have slowly withered,died a thousand times again, in my mind i have died, i have slowly withered, i have slowly withered.
