

# Nerve

## Duct Tape Mustache

Call it liberation or frustration  
As it hits like a bomb  
Tearing you apart as you're first in line  
Entering the zone  
Watch how it runs  
A nerve wrecking resistance  
Watch how it burns  
A venomous script's getting formed  
You've traveled a long way to get here  
And now its waking you up  
Waking you up  
Walk straight for a final solution  
Walk straight, don't you be so cold  
Walk straight with a clear resolution  
I'll state my case and never turn  
Watch how it runs, watch how it burns  
And it's all a deception  
Break it and learn, there's no return  
For a presence like mine  
You've traveled a long way to get here  
It's getting all so clear now all the things at least  
An elapse of conscious progress will last forevermore  
My courageous insanity follows an infinite time  
I'll be attaching the world on my shoulders  
Without a look inside  
Inside  
Walk straight for a final solution  
Walk straight, don't you be so cold  
Walk straight with a clear resolution  
I'll state my case and never turn  
Walk straight for a final solution  
Walk straight, don't you be so cold  
Walk straight with a clear resolution
