

Star

Gigi d'Agostino

Yes I sit and wonder why
You would tell me a lie
And I stayed up all night, yes All night should have known from the start
You would have torn me apart
But as long as I can survive I'll keep waiting every night
For you to walk back into my life
Gotta a hole in my soul, there's no feelin' at all
Baby I need so much of your love Like a star you are so far
But I need to find a place in your heart
Like a star you are so far
But I need to find a place in your heart Wanderer star that you are
How do you find a place in my heart?
Wanderer star that you are
How do you find a place in my heart? Yes I sit and wonder why
You would tell me a lie
And I stayed up all night, yes All night should have known from the start
You would have torn me apart
But as long as I can survive I'll keep waiting every night
For you to walk back into my life
Gotta a hole in my soul, there's no feelin' at all
Baby I need so much of your love Like a star you are so far
But I need to find a place in your heart
Like a star you are so far
But I need to find a place in your heart Wanderer star that you are
How do you find a place in my heart?
Wanderer star that you are
How do you find a place in my heart?
