Star

Gigi d'Agostino

Yes I sit and wonder why You would tell me a lie And I stayed up all night, yesAll night should have known from the start You would have torn me apart But as long as I can surviveI'll keep waiting every night For you to walk back into my life Gotta a hole in my soul, there's no feelin' at all Baby I need so much of your loveLike a star you are so far But I need to find a place in your heart Like a star you are so far But I need to find a place in your heartWanderer star that you are How do you find a place in my heart? Wanderer star that you are How do you find a place in my heart? Yes I sit and wonder why You would tell me a lie And I stayed up all night, yesAll night should have known from the start You would have torn me apart But as long as I can surviveI'll keep waiting every night For you to walk back into my life Gotta a hole in my soul, there's no feelin' at all Baby I need so much of your loveLike a star you are so far But I need to find a place in your heart Like a star you are so far But I need to find a place in your heartWanderer star that you are How do you find a place in my heart? Wanderer star that you are
