

Only Love (LP Version)

George Huff

Sun was shining through on this perfect morning and i know that i am blessed
But i'm guilty nonetheless so many people lost so many people hurting
And i wish i had a way to make everything okay I don't know why how we got here i reach inside
The answers clear...[Chorus:]

Only love can heal the pain it can right the wrong
It can take the blame only love can realize nothing more we need
Cause its all inside So we'll fight, fight and we wont let go
And we'll reach up high 'Till everybody knows
Only love can understand Only love can bring us together again And it seems since time began that people just
been fighting

And it ain't just black or white and it ain't just wrong or right
And I get overwhelmed so disconnected 'till you reach out to me
You know just what i need As long as i can hold you near its gonna be alright
Wont have no fear [CHORUS] I pray for peace to shine on me and you
I pray for strength hope and faith

For love to lead the way We'll be one on one and we'll rise above
Only love, love, love
And we'll fight, fight, fight
For the light, light, light
And we wont stop NO
'Till we get it right
