

Completeness

Minnie Riperton

(c. stepney - j. johnson) You are my completeness beloved

Every breath of you is my life

Rill me with your own lover's magic

Make me know that I am alive I need you, my love

Complete me, my love

Be tender, my love

I need you, my love Live in rapture, loving, needing, teasing, pleasing, sharing, caring

Waken me, my love; cherish me, my love

I belong to you Tender moments with you enchant me

Kiss me, make my world fade away

Love me as I want you to love me

Make the night melt into day
