

Do They Know

Boyz II Men

Do they know Do they know that Jesus was born on this day to save our lives?

Do they know that he carried the sins of the world upon his heart?

So that you and I could live and we'd have an alternative in this life Do they know what this day means?

Do they know where we've been and how it should be?

Tell me do they know? Do they know we should love one another?

Do they know?

The world will be alright only if they know Do they know that sharing love with each other is how we all should live?

Do they know that the reason for giving is more than what you give?

And to you and your's this day on a very special holiday give your love Do they know what this day means?

Do they know where we've been and how it should be?

Tell me do they know? Do they know we should love one another?

Do they know?

The world will be alright only if they know? And Lord if they know

Keep them in your care

Keep them inside your heart

And help them spread the word Do they know what this day means?

Do they know where we've been and how it should be?

Tell me do they know? Do they know we should love one another? yeah, yeah

Do they know?

The world will be alright only if they know? Do they know what this day means?

Do they know where we've been and how it should be?

Tell me do they know? Do they know we should love one another?

Do they know?

The world will be alright only if they know? Do they know what this day means? oh yeah

Do they know where we've been and how it should be? Jesus

Do they know we should love one another ?

On this very special day
