Light 'em Up

Protricity

Never look back, never let it go
Do the graveyard dance at the midnight show?
Begging for the chance, got my finger on the trigger
Gonna make a bigger bang, baby, make it bigger
Burden in my hands, burning up the road, you know
That I feel alive in overdrive
On and on and on we go
(Put it on the line 'cause I'm going all the way)
Light 'em up, throw it down and let it roll
(Put it on the line 'cause I'm going all the way, way)
A black sheep momma but I keep the faith
A supernatural born thriller of the human race
Got a light in my pocket and a hand upon the wheel
Kick it into overdrive for the over kill
Four barrel Holley pedal to the steel for real.
You know, I feel alive in overdrive
On and on and on we go
(Put it on the line 'cause I'm going all the way)
Light 'em up, throw it down and let it roll
(Put it on the line 'cause I'm going all the way, way)
On and on and on we go
Light 'em up, throw it down and let it roll
On and on and on we go
(Put it on the line 'cause I'm going all the way)
Light 'em up, throw it down and let it roll
(Put it on the line 'cause I'm going all the way)
On and on and on we go
(Put it on the line 'cause I'm going all the way)
Light 'em up, throw it down and let it roll
(Put it on the line 'cause I'm going all the way, way, way)
Light 'em up, light 'em up
Light 'em up, light 'em up
Light 'em up, light 'em up
Llet it roll
