

# Darken Her Horse

## Austra

Ride her darken horse  
her tempers lie untold  
it's always the same  
its always the same

A customary trend  
the course is laid to play  
I noticed it's there

I noticed it's there, I noticed Shoot into the darkness with your hands  
Shoot into the darkness with your hands Ride her darken horse

her tempers lie untold  
its all insane  
its all insane

a monster for a friend  
a liar to depend

I noticed it's there  
i noticed it's there.

I noticed. Hold her by the reins  
the moon isn't far,  
hold her by the reins,  
it's worth it to stay.  
nothing stable.

nothing patient here. ride her darken horse  
the pathway to the end  
she's all alone

her trust was never there  
it's you she needs hear  
I noticed it's there.  
i noticed it's there.

i noticed. Hold her by the reins  
the moon isn't far,  
hold her by the reins,  
it's worth it to stay.  
hold her by the reins  
the moon isn't far  
hold her by the reins  
it's worth it to stay.  
nothing stable.  
nothing patient here.
