For You

Endo

I know you need me
And I will surrender
For you somehow
Forsake my soulWhat's over is done
What's over is true
To be like you
To be like meI breathe you in me
Now and forever
For you somewhere
Forsake my soulWhat's over is done
What's over is true
To be like you
To be like meMy love
For you
Leans on
Leans on meWhat's over is done
What's over is true (for you)
To be like you
To be like me (for you)
