Papillon (Aka Hot Butterfly)

Chaka Khan

A faded photograph I mailed to you

With feelings I don't want to face

And the long song of surrender in blue

I remember when you took my breath away, yeahChanson papillon, we were very young

Like butterflies, like hot butterfly

Chanson papillon, we had just begun

We let it slide on by, we didn't realizeAll our memories are burning in time

Like a bittersweet perfume

Can you tell me how a love that's so fine

Could have climaxed in a single afternoonChanson papillon, we were very young

Like butterflies, like hot butterfly

Chanson papillon, we had just begun

We let it slide on by, we didn't realizeChanson papillon

Chanson papillonGone are the days of instant romance

And the nights of slow goodbyes

That was a time of life when foxy was the dance

And then you got wise to all my liesChanson papillon, we were very young

Like butterflies, like hot butterfly

Chanson papillon, we had just begun

We let it slide on by Chanson papillon, we were very young

Like butterflies, like hot butterfly

Chanson papillon, we had just begun

Just begun to flyChanson papillon, Chanson

Chanson papillon, Chanson

Chanson papillon, Chanson

Chanson papillon, Chanson

Chanson papillon, Chanson
