

Randy (Radio Edit)

Justice

Get up and shake it up
It's time that you listen up
And hear the call
There at the water
But at night you're on fire
Back against the wall
Don't stop, try to make your mark And make your mind up
Don't stop, work it out and try to make it
Randy, get yourself together
Got to give it up to make it better
Randy, you don't have to suffer
Just get closer, you'll find yourself a lover
When you know you've arrived
Then next time, don't shoot low Aim it high
When you know you've arrived
Then next time, take it slow
Shoot it high
Hold on to what you've got
And strike while the arms help put up a fight Those days are good and gone
Keep up, keep on going strong all through the night
Don't stop, try to make your mark
And make your mind up
Don't stop, work it out and try to make it
Randy, get yourself together
Got to give it up to make it better Randy, you don't have to suffer
Just get closer, you'll find yourself a lover
When you know you've arrived
Then next time, don't shoot low
Aim it high When you know you've arrived
Then next time, take it slow
Shoot it high
Feels like the latest version
Now that the winds is turning soft and cool
Next up a new dimension Find something fresh
And someone just for you
Don't stop, try to make your mark
And make your mind up
Don't stop, work it out and try to make it
Randy, get yourself together

Got to give it up to make it better
Randy, you don't have to suffer
Just get closer, you'll find yourself a lover
When you know you've arrived
Then next time, don't shoot low
Aim it high
When you know you've arrived
Then next time, take it slow
Shoot it high
