Blind Faith

Beverley Craven

She said my baby's gonna have everything I didn't
'cos she wanted to live another life
There wasn't a father to be a little girl for
So she became a woman overnight
Growing up is hard enough
Without reading it in the headlines
She's all mixed up about life
Now she's lost her appetite
Faith is blind, yeah yeah
When you wanna find yourself
It's your life so don't leave it
In the hands of somebody elseHe told me I was a fool and another dreamer
I nearly believed him for a while
He'd give an opinion with such conviction
I assumed that he was right
Now I know, I'm in control
But I could have been taken over
I was all mixed up about love
Now I've taken back my trustFaith is blind, yeah yeah
When you wanna find yourself
It's your life so don't leave it
In the hands of somebody elseSomebody elseCompromise, and sacrifice
Without ever being taken over
We were guaranteed they'll never keep
Wake up never losing sleepFaith is blind, yeah yeah
When you wanna find yourself
It's your life so don't leave it
