One Weak

Deftones

Nerve, here I borned feeding on his lung
Verve, is his curse because he wanted to meet Christ alone
Bitch, you're no good, we could be so flown
Misunderstood, we could be your God
There in my bones we could be so flown
Misunderstood, because he wanted to meet Christ alone
But you will
No you will never find me, breach unborn
Never, come here watch me burn
Never, bitch 'cause your scars show
Never, will I burn
Under, beneath the floor
Before his face, 'cause you're no good
We could have been like one
(Fuck it)
Bitch you feel sore, we could be so flown
Misunderstood, because he wanted to meet Christ alone
But you will
No you will never find me, breach unborn
Never sit and watch me burn
Never bitch 'cause your scars show
Never, will I burn
Will I burn
Will I burn
Will I burn
Beg don't try and you will never
Beg don't try and you will never
Beg don't try and you will never
Beg don't even waste your time
