Monitor

Siouxsie and the Banshees

Monitor outside
For the people inside
A prevention of crime
A passing of timeThey come and they go
It's a passing of time
They come and they go
Whilst we sit in our homesSit back and enjoy
The real McCoy
Our new air of authority
Our sentinel of miseryHis face was full of intent
And we shook with excitement
Then the victim stared up
Looked strangely at the screen
As if her pain was our fault
But that's entertainmentWhat we crave for inside
No more second rate movies
From those people outsideMonitor outside
For the people inside
A prevention of crime
A passing of timeA monitor outside
A monitor outsideThey come and they go
It's a passing of time
They come and they go
Whilst we sit in our homesSit back, sit back, sit back
Sit back and enjoy
The real McCoyOur new air of authority
Our sentinel of miseryMonitor outsideHis face was full of intent
And we shook with excitement
Then the victim stared up
Looked strangely at the screen
As if her pain was our fault
But that's entertainmentWhat we crave for inside
No more second rate movies
From those people outside
