

Hold Me Tonight

The Anniversary

released on the tour 7" and
the Floppy Records compilation No-Fi TrashHave I taken you for granted?
But I know what matters most to you
In slow motion as you walk on by
Pictures of you forever in my mindHold me tonight (tonight, tonight)
Hole me tonight (tonight, tonight)
Tomorrow keeps bringing you down and I'm still right here
Follow me to the end of the seaLooking out for new ideas
I thought that sometimes dreams come true
When to everyone who's always been there
I'm giving this to youHold me tonight (tonight, tonight)
Hole me tonight (tonight, tonight)
Tomorrow keeps bringing you down and I'm still right here
Follow me to the end of the seaTime is the secret so know as they fall onto you
My hands reach out and into nothing (but your big turning eyes?)
I saw her tonight standing outside - I said too much
One of you screamed my name and I care without anything else
You said - I heard what you said - I loved what you said when you said it to me
You sing - singing that song - when the back seat's singing my mindHold me tonight (tonight, tonight)
Hole me tonight (tonight, tonight)
Hold me tonight (tonight, tonight)
Hole me tonight, tonight, tonight!
