

I Just Wanted You to Know

[Kim Hopper](#)

Where there is fear Lord You will hide me
When winds of danger around me blow
I feel Your arms of grace surround me
And I just wanted You to know

There's strength in knowing You are near me
And peace that You alone bestow
I love You more today than ever
And I just wanted You to know

You make dry ground, where once were oceans
Where once were mountains, You make them low
Where there were stones, now there is water
You satisfy my thirsty soul

There's strength in knowing You are near me
And peace that You alone bestow
I love You more today than ever
And I just wanted You to know

For all the times I've seen Your glory
And watched You conquer my every foe
My love for You is overflowing
And I just wanted, Oh Lord I needed,
My heart is longing for you to know
