Get Up

Travis

I wish someone would write me a song
Or tell me a story
So I don't have to worry
I need a little love and a hand to hold
Somebody old to watch over me
I need a little time so I don't have to hurry
Oh, you say it all
You gotta get up, you gotta get up
You gotta get up, I don't wanna get up
You gotta get up, you gotta get up
You gotta wake up to the situation
I wish someone would answer the phone
Stop leaving me hanging on
I'm feeling like a little ship out on the ocean
I need a little love and a hand to hold
Somewhere to hold the frustration
I need a little cause for celebration
Oh, you say it all
You gotta get up, you gotta get up
You gotta get up, I don't wanna get up
You gotta get up, you gotta get up

You gotta wake up to the situation
Growing up, checking notes
So you know
Just, just which way to go
You gotta get up, you gotta get up
You gotta get up, you gotta get up
You gotta get up, you gotta get up
You gotta get up, you gotta get up
You gotta get up, you gotta get up
You gotta get up, you gotta get up
You've just gotta, you've just gotta
You've gotta, you've just gotta
You've gotta, gotta
Oh, you say it all
You gotta get up, you gotta get up
You gotta get up, I don't wanna get up
You gotta get up, you gotta get up

You gotta get up, I don't wanna get up
You gotta get up, you gotta get up
You gotta get up, I don't wanna get up
You gotta get up, you gotta get up
