Live a Long Time

Rusted Root

Southside, dream time, birds eye, hairstyle, go team, row team
It's got appeal, broad appeal, into the sublime
Well, okay, reset, high score, overlord, new day, new name
Stand up, state your name, like water into wineThe world's in my head, say let the wicked come
The world's in my head burn like firefliesHorse race, dog face, go astray, days away
White noise, Georgia O'keefe, gaze away into the sun
Well, hot pillow, hairstyle, comb it awhile, gomer pyle
That's the way it goes, hair gel for men, pose in your underwearThe world's in my head, say let the wicked come
The world's in my head, burn like fireflies'Cause oh, you never know who will come and who will stay
'Cause oh, you never know who will come and who will stay
Well, stay, live a long time today
Live a long time, live a long time with meThe world's in my head, let the wicked come
(Burn out, walk about, tadpole, dust bowl)
The world's in my head, burn like fireflies
(It's high noon, bring me my ocean)The world's in my head, say let the wicked come
(In a cup, you're days away)
Ooh, let the wicked come
(You're hours away)
The world's in my head, burn like fireflies
(Stay awhile, stoke the fire, romance the slow dance)'Cause oh, you never know, who will come and who will stay
'Cause oh, you never know, who will come and who will stay
Well, stay, live a long time today
