Let's Get Undressed

Danko Jones

I'm burning up
I've had enough
I can see that you agree you're into harder stuffDon't want to push it
Or make a scene
Let's take it easy stay the evening cause I think we clickI gotta tell you that there's something that's on my mind
I wanna do it but first I gotta find my spineLet's get undressed
Cause you're hotter than hell and I'm boiling
Let's get Undressed
Cause we're flirting I want to get it rollingThe party's rocking
When you walk in
You own the room making sure that all eyes are locked inYou're simply stunning
Don't care bout nothing
I need a lot of you we could do more than talkingI gotta tell you that there's something that's on my mind
I wanna do it but first I gotta find my spineLet's get undressed
Cause you're hotter than hell and I'm boiling
Let's get Undressed
Cause we're flirting I want to get it rollingWe got a way to make the day our own
We got a way to make the day our ownLet's get undressed
Cause you're hotter than hell and I'm boiling
Let's get Undressed
Cause we're flirting I want to get it rolling
Let's get undressed
Cause you're hotter than hell and I'm boiling
Let's get Undressed
Cause we're flirting I want to get it rolling
