

# Somebody To Call My Own

## We The Kings

I woke up with a headache  
From a night I won't forget  
I close my eyes,  
'Cause this ain't over yet  
Brooklyn bowl,  
I lost control and knocked down all your pins  
'Cause I just want to leave with you  
You'd rather be alone  
It's a long walk home  
When somebody loves,  
Somebody falls  
You're driving me crazy  
You don't know  
When somebody stays,  
Somebody goes  
Sometimes it's only lonely roads  
So don't say goodbye  
I can't close my eyes  
I'm spinning around inside  
When somebody rocks,  
Somebody rolls  
I just need to find  
Somebody to call my own  
Oh, oh, oh, oh, oh  
Singin' woah, oh, oh, oh, oh, oh  
I woke up with a taste of you  
Tattooed on my lips  
It's so messed up  
I can't recall the kiss  
Hand grenade got blown away  
When you pulled out the pen  
'Cause I just want to leave with you  
You'd rather be alone  
It's a long walk home  
  
When somebody loves,  
Somebody falls  
You're driving me crazy  
You don't know

When somebody stays,  
Somebody goes  
Sometimes it's only lonely roads  
So don't say goodbye  
I can't close my eyes  
I'm spinning around inside  
When somebody rocks,  
Somebody rolls  
I just need to find  
Somebody to call my own  
My only one  
If I've come undone  
Would you sell me out?  
If I'm broken down,  
Would you stand your ground  
And fall in love  
With me?  
When somebody loves,  
Somebody falls  
You're driving me crazy  
You don't know  
When somebody stays,  
Somebody goes  
Sometimes it's only lonely roads  
So don't say goodbye  
I can't close my eyes  
I'm spinning around inside  
When somebody rocks,  
Somebody rolls  
I just need to find  
Somebody to call my own
