

# Choke

## Grinspoon

Just because you choked on it, it doesn't mean  
That you have to go I can't receive SMS  
And I just wanted you to know  
I smoked a lot of cigarettes But did that stop us from being friends?  
Could of guessed that your lies on it  
But did we get there I hope  
We got there in the end Yesterday we cruised on automatic  
Tall grass is ready to roll  
Where were you when it got all dramatic?  
Hiding away in your hole Pretty please don't cry on me  
Because I don't think I got the strength  
If I could've cried outside in the rain  
But did we get there? I know we got there in the end Yesterday we cruised on automatic  
Tall grass is ready to roll  
Where were you when it got all dramatic?  
Hiding away in your hole Maybe on another Sunday, pick another time  
And we fight looking over your shoulder  
Maybe on another Sunday, pick another fight  
And no one is right now your feelings are gone Just because you're soaked in it  
Does that mean that you have to go?  
I smoke all of your cigarettes  
But it meant nothing, it meant nothing in the end Yesterday we cruised on automatic  
Tall grass is ready to roll  
Where were you when it got all dramatic?  
Hiding away in your hole
