

When That Wild Wind Blows

[Ryan Adams](#)

I miss you all the time
walkin, out in the streets in the blisterin cold
Wish I could bring you back diamonds or sandwiches
At the house, it ain't nothing but cold
I had a real love baby, what happened?
Pick your number and then they call it out
I miss you all the time
Walkin, holdin hands, after dark
I feel like a moon eclipsing on the car lights out in the lot
Sometimes bein yours is everything ya know I just haven't got
If your gonna give your heart away
Don't love em for what they're not
Cause when that wild wind calls, ya gotta get movin on

I miss your voice so kind, and gentle, like a machine built for calmin a storm
And all the leaves outside are turnin, evergreen into orange and brown
I had a real love baby what happened
Get reservations at our restaurant
I miss you all the time, chairs empty
Sittin alone at the table in thought
I feel like a moon eclipsing on the car lights out in the lot
Sometimes bein yours is everything ya know I just haven't got
If your gonna give your heart away
Don't love em for what they're not
Cause when that wild wind calls, ya gotta get movin on
When that wild wind calls, ya gotta get movin on
