

# Tragedy (New Album Version (Ric Wake Version))

[Marc Anthony](#)

Time after time  
You turn on what I thought was good  
And leave me behind  
You should have loved me like you know that you could But oh, no this won't be no hard goodbye  
Oh, no you can't hurt me this time [Chorus]  
She doesn't love, on my lord  
It doesn't mean it's a tragedy, tragedy  
She doesn't mean it, say that she don't  
This doesn't have to be a tragedy, tragedy All of my life  
I was searching for the love that we had  
Without knowing why  
You turned around and treat me so bad But oh, no I'll just hold my tears inside  
oh, no maybe you'll find another lover who will cry [Chorus] On the phone for hours  
But we had very little conversation  
We spoke of words with no meaning  
We spoke of love with no end  
I'll tell myself again [Chorus]
