

# Mute Witness

## Global Citizen

bound and gagged and tied to a chair  
place you in the corner, you can watch from there  
gonna dish some dirt and the dirt's going deep  
i'll give her what she wants and you, memories to keepwitness this, my mute witness  
remember this, my mute witness  
picture this, my mute witness  
got a sting in my kiss, my mute witnessonce i've done your sister, i'm gonna do you  
let you feel first hand what you've watched her go through  
she likes it rough so you better be prepared  
tie your long black mane back so, your vision's not imparedher face in the pillow, i grind her tail bone  
her neck in a strangle hold, i find my way 'home'  
she reels, she squeels  
who knows what she feels, who knows what she feels
