

# Road to Ruin

## The Libertines

Meet me in the morning and I'll be happy as a clown  
You'll just be getting up and I'll still be getting down  
The band is getting tired but they don't give a damn  
so blow the girls a kiss and give the boys a hand  
You can take the sunshine, I can take moonshine  
You can take the high road, I can take the low  
but later in the evening the one thing i believe in is  
I'm on the road to ruin it's the only way to go  
A penny in my pocket, a bucket in the well  
then saturday was sunday and I could hear the bells  
Delivery me from evil, forgiveness and for love  
you're headin for confession and I'm headin to the pub  
You can take the sunshine, I can take moonshine  
You can take the high road, I can take the low  
but later in the evening the one thing i believe in is  
I'm on the road to ruin it's the only way to go

Nancy in the corner, now I'm moving in  
I thought I'd take my chances but I took one on the chin  
I finally got her number, she wrote it on a cup  
I phoned her in the morning and woke her mother up  
She wished that I would go to bed, I only wished her well  
and then she told Jesus said that I'd go straight to hell  
she's followin his footsteps, I'm following my nose  
we're heading for the same place I'll see you down the road  
You can take the sunshine, I can take moonshine  
You can take the high road, I can take the low  
but later in the evening the one thing I believe in is  
We're on the road to ruin it's the only way to go  
You can take the sunshine, I can take moonshine  
You can take the high road, I can take the low  
but later in the evening the one thing I believe in is  
We're on the road to ruin it's the only way to go  
We're on the road to ruin it's the only way to go
