

# Snooze Away

[Sandra van Nieuwland](#)

It's the night of the day, another one that's okay

Tick tock.

I've got a future it's bright, I've got luck on my side.

I rock.Sittin' waitin' wastin' time

I'm snoozing away, my dreams and my days

The whole world's busy, I'm on holiday

Got all that I need, I'm living asleep

What is going on? When there's nothing wrong?The surface is calm, the current is strong.

But I can swim.

I've tried to keep up with the fish below me, Ofcourse they win.

Swimmin' Floatin' Sinkin' Drownin'

I'm snoozing away, my dreams and my days

The whole world's busy, I'm on holiday

Got all that I need, I'm living asleep

What is going on? When there's nothing wrong?Next time you will see me I'll be living the dream

living the dream

living the dream

I guess I'm gonna shut my eyes and snooze away, snooze away.Don't start the engine, don't start the engine.

I may not be ready yet.

Don't start the engine, don't start the engine.

Don't start the engine, don't start the engine.

No

No

No

I'm snoozing away, my dreams and my days

The whole world is busy, I'm on holiday

Got all that I need, I'm living asleep

What is going on? When there's nothing wrong?

Next time you will see me I'll be living the dream

living the dream

living the dream

I guess I'm gonna shut my eyes and snooze away, snooze away.

I'm snoozing, I am snoozing

i'm snoozing away
