

Scared

Goot

i can tell from the way you
walk
you've never seen the
world
and you've been a litle
girl for far too long

when you
say those things to me
you're
messaging with my head
did you mean
it when you said i'm not what
you're looking for?

so maybe i
could make you need me
maybe
we'll just have to find out
don't
hate me for the way i'm feeling

you know i know we know
i'm feeling
so scared
you know
it

you'll make me wait for it

get on my knees and beg
i'm
forced to compromise with what you
say
make those words count make
me see
i am wrong you were right
so maybe i could make you
need me

maybe we'll just have to
find out
don't hate me for the
way i'm feeling

you know i know
we know i'm feeling

from the
distance you seem worlds
away you seem worlds
away

i'll never reach you
what
happened to us anyway?
from
across the world it's hard to
say

if i even miss you
but it
sure feels like it today
it sure
feels like it today
you made me

say what's on my mind
i'm
regretting every single time
we
talked things over and we made
up

i've finally had enough

so
maybe i could make you need
me
maybe we'll just have to finish
