Someone There You Know

Barclay James Harvest

I've been looking for a place that I know well
It's a long, long way from here and when I get there
I will tell, I will tellI've been looking for a time that I once knew
I could spend some happy hours just being there with you
It doesn't matter where you go
As long as there is someone there you knowIf you need a friend you can depend on me
'Cause I know what it feels to be alone
And in the darkest night you need a light to see
Your shadow's sinking low just like a stone
Feels like a broken bone
Guess, I'll go on homeI've been looking for someone I know so well
She's a long, long way from me and when I find her
I will tell her
It doesn't matter where she goes
As long as there is someone there she knowsIf you need a friend you can depend on me
'Cause I know what it feels to be alone
And in the darkest night you need a light to see
Your shadow's sinking low just like a stone
Feels like a broken bone
Guess, I'll go on homeI've been looking for someone I know so well
She's a long, long way from me and when I find her
I will tell her
It doesn't matter where she goes
Long as there is someone there she knows
Long as there is someone there she knows
Long as there is someone there she knows
