Take Me Back

Charly McClain

Lord, I'm feelin' down, I've got no one to turn to
Boy, I need you 'round, these lonely nights are hard to get through
I'll get down on my knees, honey, if I have to
I'll do what it takes to please, I'll do what it takes to hold youTake me, take me back
I promise I won't hurt you anymore
Take me, take me back
Baby, we'll make it like it was beforeDo you ever think of me when all the world is sleepin'?
And you're lyin' there alone and your body needs some lovin'
But I'm tryin' to say I'm sorry so try to understand
I'll give my love forever and you'll always be my manTake me, take me back
I promise I won't hurt you anymore
Take me, take me back
Baby, we'll make it like it was before
