Angels

Owl City

Wake me if you're out thereThrough the glass in my bedroom window
In the bushes far below
I thought I saw an unfamiliar shadow
Among the ones I so clearly knowI've been sleeping with the night light unplugged
With a note on the rocking chair
That says I'm dreaming of the life I once loved
So wake me if you're out thereLiving close to the ground
Is seventh heaven 'cause there are angels all around
Among my frivolous thoughts
I believe there are beautiful things seen by the astronauts
So wake me if you're out there
Wake me if you're out thereIn the dust on my cellar staircase
A pair of footprints followed me
I saw a flicker in the fake fireplace
Blinked again but there was nothing to seeI've been leaving all the windows unlocked
With a basket by the oak tree
'Cause I'll be picking up the acorns that fall off
If you'll be climbing up to meet meLiving close to the ground
Is seventh heaven 'cause there are angels all around
Among my frivolous thoughts
I believe there are beautiful things seen by the astronauts
So wake me if you're out thereI keep my knees black and blue
'Cause they often hit the hardwood floor
Wake me if you're out there
And I believe, so I'm not praying to the ceiling anymoreI've been sleeping with the night light unplugged
With a note on the rocking chair
That says I'm dreaming of the life I once loved
So wake me if you're out thereLiving close to the ground
Is seventh heaven 'cause there are angels all around
Among my frivolous thoughts
I believe there are beautiful things seen by the astronautsThe indications reveal
That few of us realize life is quite surreal
So if you're dying to see
I guarantee there are angels around your vicinitySo if you're dying to see
I guarantee there are angels around your vicinity
