

# Sonata

## Heinrich Ignaz Franz von Biber

Sonata, my sonata  
I hear your haunting theme  
And I begin to dream You linger, my sonata  
In every reverie  
You bring your love to me Please, play on  
Make my dream love stay  
When you're gone she fades away Sonata when I find her  
Each tender note you play  
Will be my serenade Please, play on  
Make my dream love stay  
When you're gone she fades away Sonata when I find her  
Each tender note you play  
Will be my serenade My sonata
