

Whistles the Wind

Flogging Molly

Whistles the wind, blowin' my way
Sweepin' me back, back here to stay
Can winners be losers runnin' on the same track?
Some head for glory, others refresh Well it breaks my heart to see you this way
The beauty in life, where's it gone, uh?
And somebody told me you were doin' okay
Somehow I guess they were wrong, uh My isolation, now there's a sobering thought
A minute alone a lifetime too long
See the face in this mirror, so pale it could crack
Desperately wanting a color it lacks Well it breaks my heart to see you this way
The beauty in life, where's it gone, uh?
And somebody told me you were doin' okay
Somehow I guess they were wrong, uh So you drank with the lost souls for too many years
Time to be right 'cause they'll cripple with fear
Never been righteous though seldom we're wrong now
Life's only life with you in this song Now there's an ocean between
Where I am and where I want to be
So you prayers in doubt, doubt not for me Well it breaks my heart to see you this way
The beauty in life, where's it gone, uh?
And somebody told me you were doin' okay
Somehow I guess they were wrong, uh Well it breaks my heart to see you this way
The beauty in life, where's it gone, uh?
And somebody told me you were doin' okay
Somehow I guess they were wrong
Whistles the wind, whistles the wind
Whistles the wind, whistles the wind Oh, you'll find your way out, but there's no goin' now
Every woman and child drags you down for the good
It's not safe bein' free, can't give back what you feel
You said you'll always be in Heaven with me
