Paris Is Burning

Dokken

This town, I'm in can't take no more
Decadence is silly
You were my woman
Why'd you have to be so hard and cold?Paris is burning
Want to see it from afar
Paris is burning
Want to get to where you areMy life's in ruin
The girl, I love she's far away
The distant fire brings memories
Of the love that I once knewWhere are you now?
Been looking all around and I can't stay
Help me now I can't stay much more
Before I fade awayParis is burning
Want to see it from afar
Paris is burning
Get back where you areI can't believe you'd throw it all away
You know you played me for a fool
I'm leavin' now this time you know
That I'll be gone for good, yeahParis is burning
Want to see it from afar
Paris is burning
Get back where you areParis is burning, Paris
Paris is burning
Paris is burning
Want to see it from afarParis is burning, Paris
Paris is burning
