

What You Came for (Addicted To Bass 2013 Edit)

Mosca

We're all here for just one thing
DJ play one for the girls to sing
'Cause we know where there's girls
There'll always be guys
With the soul he's playing
Got me feeling so high Can he read my mind
How'd he know the next one is my tune
He's teasing me mixing in quietly...
For the drop
Better make room Chorus: If you ain't moving, tell me what you came for
If you ain't moving, tell me what you came for
Reload the track and have me screaming out for more
Tell me what you came for If you ain't moving, tell me what you came for
If you ain't moving, tell me what you came for
Reload the track and have me screaming out for more
Tell me what you came for Give me that groove
Give me that swing
'Cause when I go hard
I'll give you everything
I won't need no rest
Won't find me by the bar
'Cause the dance floor's only...
Where I keep my heart Can he read my mind
How'd he know the next one is my jam
He's teasing me mixing in quietly
It's just like he understands Chorus: If you ain't moving, tell me what you came for
If you ain't moving, tell me what you came for
Reload the track and have me screaming out for more
Tell me what you came for If you ain't moving, tell me what you came for
If you ain't moving, tell me what you came for
Reload the track and have me screaming out for more
Tell me what you came for Come DJ feed the fire
Throw 'em down like gasoline
Get in my blood, come take me higher
No one can challenge our scene Come DJ feed the fire
Throw 'em down like gasoline
Get in my blood, come take me higher
No one can challenge our scene Chorus: If you ain't moving, tell me what you came for
If you ain't moving, tell me what you came for

Reload the track and have me screaming out for more
Tell me what you came for If you ain't moving, tell me what you came for
If you ain't moving, tell me what you came for
Reload the track and have me screaming out for more
Tell me what you came for
