

# Black Rose

## Derdian

One more attempt to trick my mind  
Sending me a creature able to  
to hamper my own life, my project I firmly think now he's behind  
this conspiracy, but he's too weak  
Forever I'll resist against him What d'you wanna do the next time?  
Whom you wanna send me, again? Woman, just a black rose  
This has been your role  
that brought you to fall  
Let me say; weren't wise  
It's impossible, you know  
For your lord to rise Oh, my dear enemy, you know  
What I just did to your sweet white rose?  
Died trying to make me fall in love I found her just one month ago  
Suffering and begging in a hole  
To be saved and to be nursed What d'you wanna do the next time?  
Whom you wanna send me, again? Woman, just a black rose  
This has been your role  
that brought you to fall  
Let me say; weren't wise  
It's impossible, you know  
For your lord to rise You'll never trick me, no way, have to rise  
And to discover it, look in my eyes Woman, just a black rose  
This has been your role  
that brought you to fall  
Let me say; weren't wise  
It's impossible, you know  
For your lord to rise
