

That's Me Without You

Webb Pierce

A night with no moonlight, a day with no sun
A plane with no pilot, a watch that won't run
A tree with no branches, a rose with no dew
A boy with no sweetheart, that's me without you
A train with no whistle, a car with no gas
A well with no water, a show with no cast
A love with no future, a sky with no blue
A boy with no sweetheart, that's me without you
A bank with no money, a top that won't spin
A book with no story, a love I can't win
A chair with no bottom, a rig with no crew
A song with no music, that's me without you
A train with no whistle, a car with no gas
A well with no water, a show with no cast
A court with no jury, a church with no pew
A boy with no sweetheart, that's me without you
