

Took It By the Hand

Bleach

Took you by the hand and we watered it like plants
But we just don't know if it's gonna grow
The turning point is gone but we're just pressing on
And I still don't know if these flowers will growI don't mind the change, if it makes you happySo put it all on
black and we ain't going back
To rewind back when to see what might have been
And it would be in line to say that it wouldn't feel so great
Just to know now it's gonna endI don't mind the change, if it makes you happy
I don't mind the change, if it makes you happy
If it makes you happy that's fineAnd all I really know is that I won't let go
I've got a hand to hold and I won't let go
It's all I knowTook it by the hand and we watered it like plants
But I still don't know if it's gonna growAnd I don't mind the change, I don't mind the change
If it makes you happy
I don't mind the change, I don't mind the change
If it makes you happy, if it makes you happy that's fineThat's fine
That's fine
That's fine
