

Renegade

Sons of Priapus

Well it's everytime, feeling it coming like a hurricane.

Stopping everything that you just walk into, feeling it all everyone that I.

Throw it all away, down down renegade talking to myself again am I living life like a beast? Down down
renegade talking to myself again am I living life like a beast?

Feeling it come down as I walk you by, take yourself and put it high. Seeing you come down as I breathe you in,
and I threw it all away. Well it's down down renegade talking to myself again am I living life like a beast? Down
down renegade talking to myself again am I living life like a beast?

Take it back, take it back just can't take it back take it back just can't take it back take it back just can't take it
back, Take it back from You.

But you throw it all away, it's down down renegade talking to myself again am I living life like a beast? It's
down down renegade talking to myself again am I living life like a beast? It's down down renegade talking to
myself again am I living life like a beast? It's down down renegade talking to myself again am I living life like a
beast.
