

# Afterburner

## Sinister

Atrocious crash, altitude of terror  
The skies are red, assault on civil liberty  
Theft and deceit, weak quest for revenge  
Invade and destroy their prideless land  
Invaluable words of trust  
Written laws of ethnic cleansing  
Towards the inwards, invidious and beloved  
Irrelevant violence focused on the balance of time  
Kingdom come, or just some lunacy?  
Monster of urban history  
Atheist, or a freak of nature?  
Morals set aside, a living philosophy  
Afterburner - Unrelieved and unbound  
Afterburner - Uncalled and uncared  
Afterburner - Unallied and unlike  
Afterburner - Black mark in history
