

She'll Leave You With A Smile

[George Strait](#)

I can see you're falling for her
Friend you know she once was mine
So I guess I oughta warn you
'Cause you're showing all the signs She's a Devil, she's an Angel
She's a woman, she's a child
She's a heartache when she leaves you
But she'll leave you with a smile When she held me it was Heaven
It was worth the losin' pain
And when she's gone she'll leave you wishin'
She'd just roll your way again She's a Devil, she's an Angel
She's a woman, she's a child
She's a heartache when she leaves you
But she'll leave you with a smile And yes she's a Devil, she's an Angel
She's a woman, she's a child
She's a heartache when she leaves you
But she'll leave you with a smile
