

# Arriving UFO

## Yes

I could not take it, oh, so seriously, really  
When you called and said you'd seen a UFO  
But then it dawned on me the message in writing  
Spelt out a meeting never dreamed of before I looked out in the night  
Strange and startling  
Was this voice of time just saying There's got to be a linking of everyone  
Got to be a center  
It all comes flooding back Arriving through eons of times  
Immortal power of the future to behold  
Vessels of a different impression  
None that we could ever hope to have known So look out in the night  
Once they arrive  
On that perennial light Impress a bolder empire of energy  
In the ships we see  
The coming of outer space You say there's no reason to conjure  
With the force as it has been known to be seen  
You say I'm a fool, a believer  
Put your feet on the earth, it is green But look out in the night  
Wait for they arrive  
To start such sciences anew Here it is the coming of outer space  
Such a pure delight  
The coming of outer space Look out, look out  
Look out, look out  
Look out, look out  
Look out
