

# Adrift (outtake)

## Barenaked Ladies

[Verse 1] Ever since we said our goodbyes  
The onion rings, the phone makes me cry  
Something isn't right  
Like the Deep Blue without the Great White  
[Verse 2] In the morning open your eyes  
The waterfalls, the fire flies  
You're an abacus  
And my heart was counting on us  
[Chorus] Your mind's got a heavy load  
There's still a long way to go

Keep your eyes on the road  
[Verse 3] Crescent moon sings me to sleep  
The birches bark, the willows weep  
But I lie awake  
I'm adrift without a snowflake  
[Chorus] Your heart's got a heavy load  
There's still a long way to go  
Keep your eyes on the road  
Your heart's got a heavy load  
There's still a long way to go  
Keep your eyes on the road
