Person Person

Mirah

Oh, person, person
We're really missin' you
It breaks all of our hearts to know
That you just want to come on home
So come on homeThe telephone
Just doesn't seem to do
To let you know
How much it's true
That we love you
Yeah, we love youOh, person, person, person
Oh, person, person, personHow's that wide river?
Are the mountains doing fine?
Can you smell the cottonwoods?
Is it huckleberry time?
Is it huckleberry time?You tell fast eddy i say "how d'you do?"
Take a nap on a sandbar
And we're dreaming of you too
Yeah, we're dreaming of you tooOh, person, person, person
Oh, person, person, personYou give those glacier boats
Some muscle driven hell
And make sure the captain stands up straight
When the river starts to swell
When the river starts to swellOh, person, person
We're really missin' you
It breaks all of our hearts
To know
That you just want
To come on home
So come on homePerson person person
Oh, person, person, person (x8)
