Electronic Music

BÃ¼lent Arel

Hands in the air, cause' its the time we get crazy
Forget about your problems
cause we can to the partylets get down, down, down, down
down, down, down, down,downi see that music taking over
& it got you so hot.
and every single
position got me wanting you nowtheres nothing that compares to the things that she do
we could be here all night if you want me tooshe work that body on the floor
it just that blew me away
she get up all inside my mind
i wanna have her like all 24/hours a day
lets do itwe need electronic music, music, music, music
so we can dance and lose it, lose it, lose it, lose it
we need electronic music, music, music, music
so we can dance and lose it, lose it, lose it, lose it
this is elect--hands in the air, cause' its that time we getting crazy
forget about ya problems, cause' we came to the party
lets get down, down, down, down
down, down, down, down, down
down, down, down, down, down,
down, down, down, down, down
this is elect--she likes to work it all night let the party go on,
when you drop it like this i dont wanna go on
and with that additude i gotta take her home
say i gotta have her by the end of the songshe work that body on the floor
it just that blew me away
she get up all inside my mind
i wanna have her like all 24/hours a day lets do itwe need electronic music, music, music, music
so we can dance and lose it, lose it, lose it, lose it
we need electronic music, music, music, music
so we can dance and lose it, lose it, lose it, lose it
this is elect--hands in the air, cause' its that time we getting crazy
forget about ya problems, cause' we came to the party
lets get down, down, down, down
down, down, down, down,
down down, down, down, down,
down, down, down, down,
down, down this is elect--
