Deep Surround

Fold Zandura

Running onto danger sands again
Now Im falling where I used to stand
Rush into the raging surf with me
My only in, my only out, the deep surroundOceans crashing around me
Moon and the stars are gone
When the darkness comes to pull me down
When light fails, when Im weak, you are strongRacing against the madness of my life
Stumbling at every step and slipping every slide
One glimmer of hope, I never thought I would see
My only in, my only out, the deep surroundOceans crashing around me
Moon and the stars are gone
When the darkness comes to pull me down
When light fails, when Im weak, you are strongYou are stronger
You are stronger, yeah
You are stronger
You are strongerYou are stronger
You are stronger, yeah
You are stronger
You are stronger, yeahMy only out, my only out
The deep surround
The deep surroundOceans crashing around me
Moon and the stars are gone
When the darkness comes to pull me down
When life fails, when Im weakOceans crashing around me
Moon and the stars are gone
When the darkness comes to pull me down
When life fails, when Im weak, you are strongYou are
