

Sweet Annie

Zac Brown Band

I been burning bright
So long I cant remember
Pretty girls and late night bars
Seem to be my line of work
Believe me when I say
I cant stay this high forever
This mans had all he can stand,
Time to lay this body downSweet Annie
Can I stay with you a while
Cause this roads been putting miles
On my heart, Sweetheart,
Ive been livin in a fantasy
But one day Lightning will strike
And my bark will lose its bite
But dont give up on me
Sweet Annie.Sweet Annie
I know I promised you a life
But an empty bed and the words I said
Dont carry any weight
If I could take back yesterday,
Find a way to start it over
Turn around, put that bottle down
And pray its not too lateSweet Annie
Can I stay with you a while
Cause this roads been putting miles
On my heart, Sweetheart,
Ive been livin in a fantasy
But one day Lightning will strike
And my bark will lose its bite
But dont give up on me
What will be will beSweet Annie.Turn out the light
These hands that long to hold you
Fall all over you, all over again
Come a little closer so I can show you
My heart still beats fast for you
All over, and over again
... Oh ...
Sweet Annie
Can I stay with you a while

Cause this roads been putting miles
On my heart, Sweetheart,
Ive been livin in a fantasy
But one day Lightning will strike
And my bark will lose its bite
But dont give up on meSweet Annie.
