

If This Isn't Love

Paul Brandt

If this isn't love
What else could it be?
What's happenin' to you?
What's happenin' to me? If this isn't love
What else is so strong?
Or feels half as good
Or lasts half as long Now I am not an expert
On matters such as this
Romance has always left me in the dark But with each brush of your sweet touch
And every lingering kiss
I think that cupid's finally found his mark Could it be a bug
Or maybe the flu
That's goin' around?
You say that you've got it too If this isn't love
What else could it be?
If this isn't love
Then it's alright with me
If this isn't love
Then it's alright with me
