A Different Way

Galactic Cowboys

I get by in a different way
I get by in this life in a different way
I get by in a different way.I get high in a different way
I've got hope to cope with the everyday
I get high in a different way.No other life will ever do
No other way can see me through
No other way.I see things in a different way
I see color and life when there is gray
I see things in a different way.I feel love in a different way
I've got hope to cope with the everyday
I feel love in a different way.Looked at as one peculiar soul
Who prayed that God would not let go.I get by in a different way
I've got something real.
