

Here's To You

It's Alive

After all that's said and done
Am I still the one that's numb
After all that's gone and lost
Am I empty
All this questioning has set my mind astray (Whoa)
And the words we left unsaid still torture me Well I'm out of my mind for you
Well I'm out of my mind for you
I still you hear you say my name over and over
Well I'm out of my mind for you
I guess I'll stay this way for now
And maybe fix myself somehow
I'm falling deep alone again (Again)
I'm not hopeless
Please think of me when you're in dire need (Whoa)
When you're in dire need
I won't turn my back, I'll laugh and watch you bleed Well I'm out of my mind for you
Well I'm out of my mind for you
I still you hear you say my name over and over
Well I'm out of my mind for you And I'm still trying to find myself without you
And I'm just fine
Well I'm out of my mind for you
Well I'm out of my mind for you
I still here you say my name over and over
Well I'm out of my mind for you
Well I'm out of my mind for you (And I'm still trying to find myself without you)
Out of my mind for you
Well I'm out of my mind for you (And I'm still trying to find myself without you)
Out of my mind for you
